

Division 1: Richard Corneille Board President

Richard Corneille has served on the District's Board since April 2005.

Director Corneille is a registered civil engineer in California and a Board Certified water and wastewater engineer by the American Academy of Environmental Engineers (AAEE). He brings 40 years of professional civil and environmental engineering and public sector management experience to the Board. For over 30 years he has worked as a water engineering consultant in the Inland Empire and Southern California on regional and local water planning, design, and construction projects. For three years he was the City of Redlands Municipal Utilities Director, and represented Redlands on the Board of several Mutual Water Companies. He recently retired from a national engineering firm and is currently a consultant to that firm.

He has served as Chair of the District's Resources Committee. He is Chairperson of the San Bernardino Valley Municipal Water District Advisory Commission on Water Policy. He is serving on the Association of California Water Agencies Groundwater Committee and served on the Water Management Committee. He is the Southern California representative for AAEE.

He and his wife, Colleen, have been residents of Redlands since 1978 and raised their 3 children in Redlands.

Director Corneille is a graduate of Northeastern University with an MS in sanitary engineering and has a BS in civil engineering from the University of Vermont.
